| Description of Material Information or Facts                                                                                                            | <p>On October 2, 2026, the Company, as the seller, and Cicil Technologies Pte. Ltd. (Cicil), a Singapore-based company engaged in information technology and software development, as the buyer, entered into a Conditional Share Sale and Purchase Agreement (CSPA) for 1,005,322,680 shares of PT Pool Advista Finance Tbk (PAF), representing 30.00 percent of PAF's total issued and fully paid-up capital (the Transaction). The Transaction value will be determined based on the fair value according to an appraisal report from an independent Public Appraisal Office (KJPP) registered with the Financial Services Authority (OJK). As of the date of this Information Disclosure, the KJPP report has not yet been issued, and therefore the Transaction Value has not yet been determined. The CSPA is conditional; completion of the Transaction is dependent, among other things, on the issuance of the KJPP report, compliance with OJK and IDX requirements, and the signing of payment documents. After the Transaction is completed, the Company's ownership in PAF will change from 76.34 Percent to 46.34 Percent, and Cicil will own 30.00 Percent.</p> |
| Impact of event, material information or facts towards Issuers or Public Company's operational activities, legal, financial condition, or going concern | <p>The signing of the CSPA will not impact the Company's operational activities, legal aspects, financial condition, or business continuity. The Company retains the rights to PAF shares until the Transaction is completed. Upon completion of the Transaction, the Company will receive proceeds from the sale, which will strengthen its liquidity, and PAF will remain a consolidated subsidiary.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
